

AWARDED DECISION OVER MITCHELL

Milwaukee, Wis., March 9.—Rocky Kansas, Buffalo, was awarded the newspaper decision over Mitchell, Milwaukee, lightweight boxer, at the end of a ten round bout, no decision but here tonight.

While a majority of the newspaper critics gave Kansas the better of the argument, some thought Mitchell had an even break and one writer went so far as to credit Mitchell with a shade. Both scored knock-downs in the fifth session.

Mr. Richards announced tonight that Rocky Kansas and Willie Jackson, lightweight, had been matched to meet in a fifteen round bout at Madison Square Garden on March 17. Jackson was substituted for Benny Leonard, lightweight champion, who is ill with influenza.

ATTEMPT TO DELAY TRIAL OF INDICED WHITE BOX PLAYERS

Chicago, March 9.—An attempt to obtain a postponement of six months in the trial of the Chicago White Sox baseball players indicted for the alleged throwing of the 1919 world's series probably will be made next Monday when the case is called according to attorneys who will prosecute the case. Indications, however, were that not more than one month's delay would be granted.

Judge George Barnett, who was retained about a week ago by the American league to represent it at the trial today said that he had come into the case recently that he was not familiar with its details and wanted additional time to look into it. Six months would be desirable, he said.

Two state attorneys assigned to the case have been called out of the city. It was said at the state's attorney's office and consequently some delay would be necessary.

Judge William E. Dever, who is to preside, will sit today, but his clerk said that the judge had indicated that he would not grant "much more than a month's delay," Judge Dever frequently has expressed a desire to get the trial started as quickly as possible.

Attorneys who will defend the White Sox baseball players accused of throwing the 1919 world series, tonight said they would oppose a further postponement of the trial which is scheduled to begin on Monday.

McGraw WHIPS GIANTS INTO FORM

(Copyright, 1921: By The Chicago Tribune.)

San Antonio, Tex., March 9.—(Special to The Bulletin.)—Quartermaster in this city finds John McGraw with his gallant New York Giants enjoying every convenience and splendid conditions for training and carrying themselves in manner that indicates class. Last season, after a bad start, the Giants finished second in the National league race.

"I have a better ball club by a lot than I had at this time last year," McGraw said. "I have a better ball club by a lot than I had at this time last year," McGraw said. "I have a better ball club by a lot than I had at this time last year," McGraw said.

Such a statement would indicate that Mr. McGraw has strong hopes of getting back into the championship class this season. One can't even doubt it if one spends even fifteen minutes talking to him. He's quite enthusiastic over his chances and one need spend only one day watching his athletes perform to be assured that Manager McGraw knows what he's talking about and is up for it.

Some "Ifs" on Giants' Team.

The Giants look like a great team for the coming fight. However, there are "ifs" even on this club although it seems well fortified to stand several breaks of bad luck and disappointments. One feels safe in saying that the Giants will have high class pitching, good catching, classy outfielding, and slashing infield play, if the regulars, or the men now counted upon to turn out the work, do not fall down or get sick or injured.

Just at this writing, which is a bit early in the spring, it is noticeable that McGraw and his two wise and experi-

Sticks to Big Leagues.

One rookie who is favored by circumstance to stick in the big leagues this year is Jim Aulbach, the rookie pitcher of the Yankees. Aulbach is showing a lot of stuff in the South, but that is not the only reason why he is likely to stay up. Lots of birds show all kinds of class in the South only to fade and wilt before the great crowds in the league parks. But Aulbach is a southpaw and the Yankees have only Harry Harper to do the left hand finding. Even if he doesn't look as good as some of the young right handers he is more apt to land just because the New York club needs southpaws.

Favorite Stunt.

One of the favorite stunts that Huggins makes his men go through with to make a complete outfit of the bases every time they finish a turn at bat. The speed is not always the same, but the principle is there. The stunt is not the one that the players prefer to all others. They may more than football men enjoy trotting around the field half a dozen times or so in the early workouts in the fall, but it serves a purpose.

What's Frazee Next Move.

Boston fans used to consider that Hooper, Speaker and Lewis formed the greatest outfield playing baseball, and at that time they were not far wrong. There may have been three greater stars playing in the same outfield at the same time, but none who could play together in better style or throw with more sense and accuracy. Boston has lost them all and Maraville and Ruth too, and the Hub is wondering what Frazee will do next. McInnis and Scott are the only ones left.

Has Stars of Last Season.

In midseason he swapped Art Fletcher for Dave Bancroft. He still has Kelly and Frisch in splendid form and Bancroft, who probably will be as good as ever, all depending upon seriousness of his illness. He bought Goldie Rapp from St. Paul with the idea of using him at third and sending Frisch back to second. Larry Doyle has passed out of the big show to be a class AA manager.

At Present Writing.

Rapp hasn't had a test at third because of being detained in reporting. All experts of the association declare he will make good. He has had enough experience in the profession to step into his league circles without getting scared. He's not a green kid.

Some Mighty Fine Talent.

But hearing of Bancroft's illness and not knowing the true worth of Rapp, McGraw, Jennings and Burckett all have been laboring industriously with three good looking lads. One is Ewell Gross, last year with San Antonio, who looks

FINANCIAL AND COMMERCIAL

MARKET CONTINUED IRREGULAR.

New York, March 9.—The stock market experienced another period of irregular depression today. Much of the news and abundant developments coupled with the absolutely absence of public interest, contributing to that end.

Industrial conditions assumed more disturbing aspects, the coming wage reduction by the western packers being followed by announcement that the Pennsylvania railroad intends to cut salaries and wages 10 per cent, with economic consequences. After the close of the market it became known through Chicago advices that similar action would probably be taken by all the leading transportation companies.

The annual report of the American Sugar Refining Co., showing operating profits of only \$1,800,000 for 1920, against more than \$10,000,000 in the previous year, doubtless accounted for the recent steady decline of food and kindred shares.

Latest conditions in the steel trade were emphasized by the Iron Age, which made especial reference to the detached attitude of consumers and further restriction of operations by most of the largest producers.

Less attention was directed towards foreign affairs, the uncertain tone of international remittances, in which some recovery was shown on covering of speculative commitments, seemed to offer little hope of early readjustment of the unsettled results from the allied occupation of Germany.

Speculative issues fared better than standard stocks in the day's erratic movements. Such investment issues as Reading and the high transcontinentals were under constant pressure at net losses of 1 to about 3 points. Sales amounted to 100,000 shares.

In the bond market falls were adversely affected by the heaviness of kindred stocks. Among the various government lotteries for the outstanding feature was Liberty 3 1-2s at the new low for the year of 99.24, others of that group also falling. Total sales (par value) aggregated \$3,875,000.
